PROFESSIONAL EXPERIENCE

PHP WordPress Developer

Website Learners Pvt Ltd, Chennai

September 2024 – Present

- Developed the AI Website Builder Plugin integrated with GravityWrite to auto-generate websites using Backend WordPress REST APIs.

- Integrated Elementor for post-generation customization.
- Developed If-So Plugin to personalize content based on user behavior (Location or ip).
- Managed N8N automation and cloud subdomain creation with WHMCS Custom Module.
- Building **GravityDoc** AI tool that turns simple prompts into full-stack apps with live previews and instant deployment, using Golang and Next.js.
- Deployed to custom domains using Supabase (auth, DB, functions).

PHP Developer

ShareSoft Technology, Madurai

July 2022 – September 2024

- Developed 10+ custom plugins, integrated APIs, payment gateways.
- Built multilingual stores with WPML.
- Automated recurring import/export tasks using **cron jobs** and SFTP for scheduled data sync.
- Focused on security and scalability.

PROJECTS

- **AI Website Builder Plugin (GravityWrite):** AI-powered WordPress plugin using Elementor for website generation.
- **Lovable AI - GravityDoc Integration:** Used Golang + Next.js + Supabase (auth, DB, edge functions).
- **N8N Automation Platform (WSK Hosting):** Workflow system with dynamic subdomain creation.
- **WooCommerce API Import Plugin:** REST API-based product importer with mapping Categories with schedule based auto imports and custom logs.
- **WooCommerce All Export & Import Plugin:** Drag-drop tool for managing WooCommerce data.
- **Laravel E-commerce Panel:** Admin panel for coupons, products, and orders.
